

Statement of Work - Patient Reminder Service

Client: Bluebird Dental Clinics AB

Supplier: Maya Lindqvist Consulting

Date: 2 November 2025 (final)

Background

Bluebird Dental Clinics operates four clinics in Uppsala and Enköping. About 18% of booked appointments are missed without notice, which costs the clinics an estimated EUR 210,000 a year in idle chair time.

Service

A patient reminder service that sends reminders 48 hours before each appointment by SMS and email, with a link to confirm or cancel. A second, SMS-only reminder is sent 2 hours before the appointment.

Deliverables

- A reminder scheduler connected to the clinics' DentaBook booking system.
- Message templates in English and Swedish.
- An opt-out page for patients who do not want reminders.
- A monthly report of no-show rates per clinic.
- Handover documentation and one training session for reception staff.

Roles and responsibilities

Bluebird provides API access to DentaBook, a test clinic and one contact person in each clinic. The Supplier designs, builds and configures the service and supports reception staff during the first two weeks.

Commercial terms

Fixed price of EUR 9,500, payable in two equal instalments: half on kickoff and half on acceptance. Support after go-live is billed at EUR 95 per hour. SMS costs are passed through at cost.

Acceptance

The Client confirms acceptance within 10 business days of go-live. If the Client raises no defects in that period, the service counts as accepted.

Data protection

Patient names, phone numbers and appointment times are processed under the data processing agreement signed on 28 October 2025. Message logs are deleted after 90 days.

Timeline

Kickoff on 10 November 2025. Go-live on 12 January 2026.

Change requests

Changes to scope are estimated in hours and approved by email before work starts.
